STUDIO SUITE

An exceptional detached studio bathed in natural light with gleaming wood floors and brilliant open spaces. An ideal environment for creative pursuits, work from home endeavors or private guest/recreation space. This multi-purpose building adds tremendous flexibility and inherent value to this unique westcoast contemporary home.

EAST MEETS WEST DESIGN

Careful consideration of light & shade; form & function allows an exploration of architectural lines and supremely individual style in a lush westcoast setting. Unobtrusively distinct from its neighbours, walls and roofs were effectively created around windows that provide masses of natural filtered light and harmonizing woodland views into the calming interior environments. Ample outdoor rooms extend the living space into the 1/3 acre lot. A detached & design wise studio provides ideal work/workout space.
